Hello Steve,

Please find attached the VI Mitigation Work Plan, with redlined revisions for your review. I've also attached a PDF, in case the problems with viewing the revisions persist.

Thank you,

**Valerie Chan, P.Eng.**

**Subject:** RE: Redlined VI Mitigation Work Plan, and Notice of sampling at B&G Trucking Building 8  
~COR-038443-62~

**Valerie:**

Please send me a traditional red line/strikeout version so I can see exactly any language that is being proposed to modify. I just see a red vertical line next to paragraphs that have been modified, not specific text.

Also, we are not changing screening levels, so Section 1.1 should not be modified. Delete any reference to changing screening levels

I agree with language in Section 3.8 that our cleanup criteria is now reflected as:

SSDSs are in compliance if IA VI-related concentrations are less than 2012 ODH IA screening levels, and sub-slab concentrations are less than ODH screening levels calculated based on an AF of 50.

Please update the revised Plan and resend.

Thanks.

**Subject:** Redlined VI Mitigation Work Plan, and Notice of sampling at B&G Trucking Building  
8 ~COR-038443-62~

Hello Steve,

Please find attached the VI Mitigation Work Plan for your review. The Work Plan was revised in redline to reflect the SS screening level (AF of 50) discussions from the meeting held on September 10, 2015.

GHD has rescheduled the sampling at B&G Trucking Building 8 to Tuesday, October 8<sup>th</sup>. On the originally scheduled sampling date of September 29<sup>th</sup>, GHD discovered that the fans at Extraction Points 1 and 2 were not operational. The fans were replaced on Thursday, October 1<sup>st</sup>.

Should you have any questions or comments, feel free to contact us.

**Valerie Chan, P.Eng.**
